

Space

Beginner (A1)

7 questions

- 01 Would you like to travel into space? Why or why not?
- 02 Is space exciting or scary to you?
- 03 Do you ever look for planets in the sky?
- 04 Would you like to sleep in space for one night? How many nights would you like to stay?
- 05 Can you see a lot of stars from your home?
- 06 Do you watch videos or documentaries about space?
- 07 Do you like space stories in books or in movies?

Space

Elementary (A2)

24 questions

-
- 08 What is the most interesting thing you know about space?
 - 09 What is the most interesting planet (besides Earth) in our solar system?
 - 10 What would you like to see in a space museum?
 - 11 Would you like to try on a space suit? What do you think would be the most uncomfortable thing about it?
 - 12 Are you more interested in rockets or planets?
 - 13 Have you ever seen a satellite move across the sky?
 - 14 What was the last thing in the night sky that made you stop and look?
 - 15 Would you rather watch a rocket launch or a meteor shower?
 - 16 What do you picture when someone says 'alien'?
 - 17 When you were a child, what did you think the Moon was like?
 - 18 Have you ever seen a shooting star? Where were you?
 - 19 Where have you seen the most stars?
 - 20 Have you ever seen an eclipse? What was it like?
 - 21 Would you go outside late to watch a meteor shower?
 - 22 Did you want to be an astronaut when you were a child?
 - 23 Has a space movie ever scared you?
 - 24 What have you seen in the night sky that you couldn't name?
 - 25 If you could take one photo from space, what would you take a picture of?
 - 26 Have you ever slept outdoors under the stars? Where?
 - 27 Do you remember a picture of space that surprised you? What was in it?
 - 28 Have you ever searched online after seeing something unusual in the sky?
 - 29 Do you ever play games set in space? Which ones?
 - 30 How often do you use the satellite view on a map? What is better about the satellite view?
 - 31 Do you hear about space news by chance, or do you look for it?

Space

Intermediate (B1)24 questions

- 32 What do you think about space tourism?
- 33 How important is learning about space?
- 34 What is your favorite space movie or TV show? How realistic is it?
- 35 What characteristics make a good astronaut?
- 36 Do you prefer space stories that feel real or ones that are pure fantasy?
- 37 What space news has stayed in your memory?
- 38 What space discovery would you most like to see in your lifetime?
- 39 What do you find hardest to imagine about space?
- 40 Have you ever changed your mind about the possibility of life beyond Earth?
- 41 What ordinary part of an astronaut's day would you want to ask about?
- 42 If someone you cared about joined a risky space mission, would you follow every update or avoid the news?
- 43 Do you think you would enjoy living on a space station after the first week?
- 44 What everyday activity do you think would feel most different in low gravity?
- 45 What did you expect people to be doing in space by now when you were younger?
- 46 Would you rather watch a documentary about a failed space mission or a successful one?
- 47 Tell me about a time the night sky made a trip memorable.
- 48 How has your view of the night sky changed since you were a child?
- 49 Does knowing the names of stars change how you enjoy looking at them?
- 50 Does a sky full of stars make you feel calm, curious, or uneasy?
- 51 Would you travel a long way to see an eclipse that lasts only a few minutes?
- 52 Have you ever been surprised by how a place looked in a satellite image?
- 53 What kind of place would you like to see in a live view from space?
- 54 Do you care more about the people on a space mission or what they discover?
- 55 Which would you fund: a safer mission with a small goal or a risky mission with a big goal?

Space

Upper Intermediate (B2)20 questions

- 56 Will humans ever travel to different solar systems?
- 57 Would you agree to help colonize a planet if you knew you couldn't come back to Earth?
- 58 What is the most important thing for astronomers to research?
- 59 What do you think of your country's involvement in space?
- 60 What evidence would convince you that scientists had found life beyond Earth?
- 61 Would evidence of ancient life on Mars or life on a distant planet today affect you more?
- 62 If simple life were found on another planet, should we send people there?
- 63 Should humans send messages into space when we do not know who might receive them?
- 64 Do you think space exploration is driven most by curiosity, national pride, or business?
- 65 What kind of space news is most likely to disappoint you after you read beyond the headline?
- 66 Do images of Earth from space make you feel closer to other people or more alone?
- 67 If a new settlement on the Moon needed rules, should its first residents write them or people on Earth?
- 68 Should a space agency run many small missions or save up for one major mission?
- 69 If you could fund only one, would you choose a space telescope or better satellite weather warnings?
- 70 Would you support a research mission that also carried paying tourists?
- 71 If a satellite company closed, who should pay to remove its old equipment from orbit?
- 72 If a company paid for a space mission, should it be able to keep the results private for a while?
- 73 Should scientists or the public have more say in which missions get funding?
- 74 Should satellite images of Earth be open to everyone, or should some be restricted?
- 75 Would you back a mission that helped another country more than your own?

Space

Advanced (C1)

4 questions

- 76 Can a space agency from one country speak for humanity if it discovers life elsewhere?
- 77 Could finding life elsewhere make conflicts on Earth worse instead of bringing people together?
- 78 How would the answers we get from space research differ if private companies funded it instead of governments?
- 79 Who should be able to limit new satellite launches when countries disagree?
